MARCHING STOPPED.

Injunctions Inforced Against the Striking Miners.

FIRST BLOOD OF THE STRIKESHED.

A Drummer Struck by a Deputy Sheriff and Serious Trouble Was Narrowly Averted—Miners Decide to Remain Quiet Until the Injunction Cases Are Decided—Reports From Various Places.

PITTSBURG, Aug. 14.—Injunctions by the court have put a stop to marches by the striking miners against the New York and Cleveland Gas Coal company for a time at least. But in the execution of the injunctions the sheriff and his deputies narrowly escaped precipitating serious trouble. As it was the first blood of the strike was shed. Henry Stewart, one of the sheriff's deputies, struck Jacob Mott, a drummer of the McDonald band, with the edge of a brass horn, and cut a severe gash above his eye.

Sheriff Lowry met and stopped a band of 1,000 marching miners. He read to them the injunction and ordered the strikers to return to their camp. The men paid no attention to the order for a time and the drum corps attempted to lead the marchers past the sheriff and his deputies. The deputies closed up and moved forward, headed by the sheriff, and the opposing forces came together. There was a lively scuffle, during which Mott was hurt. Blood flowed in a stream from the gash.

The sight of the blood wrought up the 1,000 idle miners to such a pitch that a desperate conflict was imminent. The deputies also were excited and noisy. The strikers were jeering and yelling and urging a further rush down the road. In that crowd there were enough angry strikers to annihilate four times the force of officers on the ground. Captain Bellingham, Sheriff Lowry, Chief Deputy James Richards and Superintendent Dearth were the cool men in the assemblage. To them and Captain Bellingham belongs the credit of avoiding a riot. When Bellingham saw there was danger of his men getting beyond his control he commanded a halt and addressed himself to the task of restraining the more belligerent. So well were his efforts directed that he soon had restored comparative order.

Sheriff Lowry had a difficult task to perform, but he handled it well, and by his coolness and good nature did much to neutralize the bitterness and strife invited by the behavior of his subordinate. The strikers finally retired and marched back to their camp.

There were several other brushes with the deputies, but no actual collision. After the miners returned to camp the officers held a conference with their attorney and he advised them to quit marching until the court had heard the argument next Monday on the bill of equity brought by the New York and Cleveland Gas Coal company, as it might injure their case if they were brought up for contempt before the court.

President Dolan then issued orders that no marches should be made on any of the mines of the New York and Cleveland Gas Coal company until further orders, although marches may be made against other places. In place of the marching massmeetings will be held and speeches made as a means of keeping miners of the company from going to work.

The sheriff does not think there will be any trouble at any of the mines of the New York and Cleveland company, and is fully convinced the miners will do the right thing. He is now confident that he can handle the strikers, and if the injunctions of the Allegheny county courts are made final, they will obey the order. He has given strict orders, however, not to permit any marching and to enforce the law, even if compelled to arrest all the leaders in the movement.

Crisis Expected.

WHEELING, Aug. 14.—The striking miners of eastern Ohio, who have passed about the mouth of the Laughlin mill bank in Martin's Ferry, are determined to bring out the mill miners. Their forces are being augmented every hour and a crisis is expected in the near future. The strikers will not be arrested unless they interfere with the working mill miners, or invade the mill property.

Miners Decide to Return to Work.

BEDFORD, Ind., Aug. 14.—The miners of the Bedford Coal Mining company and the Dillman mines, who have been idle since last Saturday, have signified their intention of returning to work next Monday. They had been induced to quit work by the Washington miners much against their own will, as they are getting all they ask for their labor and steady work.

No Attention to the Sheriff's Orders.

COFFEEN, Ills., Aug. 14.—Bradley's army of striking miners still threaten the town. No attention was paid to the sheriff's proclamation ordering the strikers to leave the county, and the men are as defiant as ever.

Has Extended to Montana.

GREAT FALLS, Mon., Aug. 14.—Five hundred coal miners employed by the Alberta Coal company at Lethbridge, Canada, went out on a strike yesterday for an advance of 10 per cent in wages.

CONFESSED AND WAS CONTENTED.

Wife Murderer Peter Monahan Met Death Without a Tremor.

BALTIMORE, Aug. 14.—Peter Monahan, 74 years old, was hanged here yesterday for the murder of his wife. The crime was committed on March 25, 1897, and Monahan was convicted and sentenced on June 17. The drop fell at 9:56.

Monahan displayed remarkable nerve and met his fate without a tremor. He made no confession or statement of any kind, contenting himself with saying that he had told all he had to tell to his confessor and his God. He will be buried in St. Peter's Catholic cemetery beside the woman he murdered.

CONDITION OF BUSINESS.

R. G. Dun & Company's Weekly Trade Report.

NEW YORK, Aug. 14.—R. G. Dun & Company's weekly review of trade says: Every city reporting this week notes increase in trade and nearly all bright crop prospects. The great change in business is emphasized by the presence of a multitude of buyers from all parts of the country, by their statements of the situation at their homes, and more forcibly yet by the heavy purchases they are making. But the customary signs of prosperity are not lacking. The strong rise in stocks, the growth of bank clearings and railroad earnings, the heavy speculation in many products, but most of all in wheat, have made the week one of surpassing interest even to those who best remember the upward rush in 1879.

At the principal clearinghouses throughout the country payments in July were for the first time slightly larger than in 1893, and 11 per cent larger than last year; in the first week of August 7.7 per cent larger than in 1892 and 25.4 per cent larger than last year, and in the second week of August they are 17.9 per cent larger than in 1892 and 38.1 per cent larger than last year.

The great crops and the haste of foreigners to buy and ship wheat in view of shortage elsewhere, have made the week memorable. Taking of profits by a pool lowered the price 3 cents on Saturday, but it has since risen 5 cents.

Western receipts, slow in July, have in two weeks been 7,397,713 bushels, against 6,722,362 last year, and Atlantic exports, flour included, have been in the same two weeks 6,114,031 bushels, against 3,884,313 last year.

Even the demand for corn, by greatly exceeding last year's, shows that foreign anxieties are serious, for 5,510,135 bushels have been exported in two weeks from Atlantic ports, against 2,514,428 last year. The price has advanced 1 1/2 cents, notwithstanding enormous stocks being brought over.

The urgency of French buying of wheat, reports that Russia will stop exports in order to keep supplies for itself, and continued shipments from the Pacific to countries usually having a surplus, make even the largest estimates of a probable supplies not too great for the possible demand.

In all the great industries a large demand for products appears with strong speculation in materials and intermediate products. In the iron and steel branch, starting of many works after settlement of wages keeps prices low, and even depresses some, but the fact that the demand is growing leads to heavy purchases of iron ore, 200,000 tons at Cleveland in a week, and of billets 40,000 tons, while concessions recently reported in pig iron have ceased. The output of furnaces Aug. 1 was 165,578 tons, against 164,064 July 1, and decrease in known stocks unsold indicates a consumption for two months past averaging 181,000 tons weekly, which is more than in the same months of 1892, though below the greatly increased capacity of works now. Sales of tin are moderate, of copper to American consumers large, it is said at 11 cents for lake, and of lead at 3.72 1/2 with speculative realizing, but heavy sales of tin plates are bringing slightly better prices.

All textile industries are encouraged by a greatly improved and really large demand for goods, which causes many to advance in price. With production much curtailed, stocks of cotton goods are rapidly decreasing and in woollens advances have been made in Clay worsted and mixtures, flannels and Middlesex suitings. Speculation in wool continues with prices about 1 cent higher, but sales of 23,499,500 pounds in two weeks show the willingness of some holders to realize.

Failures for the week have been 239 in the United States, against 298 last year, and 50 in Canada, against 36 last year.

FAMILIES ARE HOMELESS.

Terrific Cloudburst in Arizona and New Mexico.

NOGALES, A. T., Aug. 14.—Southern Arizona and northern Mexico have been visited by a terrific rainstorm. All the telegraph lines between Nogales and Guaymas are down and a greater part of the Sonora railroad is washed out. The track between Nogales and Encinas, a distance of 16 miles, is almost entirely gone.

There was a cloudburst above this city which filled the stream that flows through the place and flooded the greater part of Nogales. The three bridges were washed away. Several houses in Arizona street were washed away and a number of Mexican families are homeless. The residence of Arilo Ramirez, the mayor, was destroyed.

We Have No Room For Anarchists.

NEW YORK, Aug. 14.—Commissioner General of Immigration Powderly has requested the treasury department to cable to United States consuls in Europe, and principally those in Spain, France, Italy and Germany, requesting them to keep a sharp look-out for anarchist emigrants to America and to notify him by cable when any one of them embarks for the United States.

WEALTH OF KLONDIKE

Plenty of Gold in Alaska, but It Is Hard to Get.

EXPERIENCE OF A PROSPECTOR.

Too Late to Go There This Winter and His Advice Is to Wait Until Spring. Both the White and Chilcoot Passes Are Blocked—Canada Will Collect Royalties From the Miners.

NEW YORK, Aug. 14.—The Herald says: Confirmation of stories of vast wealth of the Klondike district in Alaska comes from a prospector now in this city who has made two trips to the new Eldorado. He is Henry Henderson, 33 years old, a native of Pictou county, Nova Scotia, who took out his naturalization papers in this country 10 years ago. To him the credit of the discovery of the wonderful deposits of gold in the Klondike is to a certain extent due.

He told his brother Robert, who was a miner in Colorado, of the wealth of the district and gave him \$100 to pay for his outfit to the Alaskan fields. Robert established a claim on Gold Bottom creek, which yielded \$10,000 in coarse gold in two weeks.

When the 1st of October shall have rolled around a little steamer will leave for Dyea inlet with 100 prospectors, mining engineers and experts and assayers, with Henry Henderson in charge. With him will be also his niece, Miss Maud Henderson of Nova Scotia. She is a pretty girl of 17 years, a housekeeper and rugged enough to stand the severity of the weather and the hardships of the trip. She will preside over her uncle's household in the gold region.

Mr. Henderson is 6 feet 4 inches high with a frame as sturdy as that of an ox. He has been a miner for 15 years. The climate of Alaska has no terrors for him, for he made what he called the "dead winter" outward trip from the Klondike, and crossed the Chilcoot pass with the thermometer 65 degrees below zero. He has established a claim of 500 feet near that of his brother on Gold Bottom creek, but has not worked it yet, as he was obliged to return to Nova Scotia.

Mr. Henderson's advice to inexperienced men who are thinking of starting out now for the gold fields is "don't." Although he believes the stories of hardships have been exaggerated, he says the land is in no condition to be worked until the frost has left, and the journey over the Chilcoot pass is fraught with danger in the snowdrifts. In the late spring and summer, he says, the trip over the pass has no more perils than a walk on Broadway.

Mr. Henderson made his first journey to the Yukon river in the spring of 1893, covering 700 miles in 54 days. He says he could now make the journey in 30 days. He left the district the day after Christmas of the same year, with two companions and an Indian to break the trail and attend to the nine dogs, which drew the two sleighs. After 53 days of cold of a degree almost beyond human endurance, snowstorms, exhaustion and hunger, the little band reached Dyea inlet. At one time they became so benumbed that they had to abandon \$15,000 in gold dust on the side of Chilcoot pass, pushing on with a few pounds of bacon and flour. They found refuge at a trading post and one of the party put back for the dust. For two days and three nights the men were obliged to huddle between the sleighs with a canvas covering them.

Mr. Henderson returned to the gold district in March, 1895, mining in the vicinity of the Stewart, Lewes and Sixty Mile rivers. Pushing further in the heart of the Klondike district, he met his brother, who was established on Gold Bottom creek. After Mr. Henderson had staked out a claim of 500 feet on the creek, he left it in charge of his brother and went to visit his family in Nova Scotia.

BLOCKADE IS CONFIRMED.

Gold Prospectors Are Selling Their Outfits and Returning.

ASTORIA, Or., Aug. 14.—The Oregon Railway and Navigation company's steamer George W. Elder has arrived here from Dyea. The Elder left Dyea the 9th inst. She confirms previous reports that both the White and Chilcoot passes are blocked. The route from Skaguay and White pass is more level and easier traveling, though 25 miles further. But the prospectors is landed on Lake Bennett, the second lake above Linderman, where travelers by the Chilcoot pass are landed. Besides, there is plenty of timber on Bennett lake to build boats, while there is none on Linderman.

Officers of the Elder say that not one-half of the people will get over the mountains this winter. Many are selling their outfits and returning. Letters from parties who went up on the Elder advise their friends not to go this fall as they can not get through.

GOLD FEVER ABATING.

Discouraging Reports From Dyea Are Having Their Effects.

SAN FRANCISCO, Aug. 14.—During the past week the Klondike fever has abated somewhat in this city, owing probably to the discouraging reports received from Dyea. The are plenty of people who announce their intention of trying the Chilcoot route in the spring and of those who are anxious to go at once a large proportion seem disposed to travel by St. Michaels and up the Yukon.

TOWN SACKED AND BURNED.

Spanish Troops Surprised While Drunk and the Officers at a Ball.

KEY WEST, Aug. 14.—An important engagement took place near Cardenaz, Matanzas province. The Spaniards were badly defeated with very heavy loss. General Molina was killed. The fight lasted several hours and General Weyler was obliged to retreat from Aguacate to Jaruco. The insurgents are waiting outside of the town to see if they can attack his forces. The people of Havana fear the dangers of the situation of Weyler. Nearly all the Cuban forces of Havana province are concentrated near Jaruco.

Near Gibira, Santiago de Cuba province, the town of Rosalia was attacked. The insurgents entered the town without resistance, finding many Spanish soldiers drunk in the street and most of the officers at a ball. One captain was killed, three lieutenants and 30 soldiers wounded. Twenty-five guerrillas who came to the aid of the Spanish were machetted. After sacking the town it was burned and only three houses were left.

Weyler has ordered all stores at Esperanza not to sell goods, but to close their doors. The people are dying of hunger and the sick can not buy drugs. Weyler wants them punished because the insurgents entered the town and the people made no resistance.

Hanged Without a Trial.

JACKSONVILLE, Fla., Aug. 14.—A special to The Citizen from Key West with late Havana advices states that a Spanish spy, Miguel Besta, was hanged without trial by Baldomero Acosta, a prominent Cuban leader. Besta had been employed by Weyler to visit Acosta's camp and assassinate him. News of his mission preceded him, however, and on reaching the camp his execution was ordered. Besta had a bloody record as a professional spy and having been instrumental in sending many Cubans to prison and death.

CANOVAS' FUNERAL.

Solemn Ceremony in Madrid Over the Dead Premier's Remains.

MADRID, Aug. 14.—The funeral of Senor Canovas del Castillo yesterday was a most touching and solemn ceremony. All the troops of the garrison lined the route along which the cortege moved, the flags were lowered, and the public buildings, embassies, consulates and clubs were heavily draped with crepe. More than a thousand wreaths were deposited in the death chamber.

A salvo of artillery announced the starting of the funeral procession, which moved slowly through an enormous crowd, in which all heads were bare and many eyes were weeping. The military honors were those due a commander of a fortress dying in his command. The procession occupied two and one-half hours in passing a given point.

All the shops in the city were closed and a very large proportion of the populace that thronged the streets appeared in mourning garb. The entire garrison marched past the coffin and the service lasted from 4 until 7:30 p.m.

The remains of Senor Canovas were interred in the family vault in the St. Isidoro cemetery, amid salvos of artillery and the tolling of all the bells of the city.

Valuable Horses Cremated.

WABASH, Ind., Aug. 14.—A \$4,000 fire occurred just out of the city limits at about 2:30 yesterday morning, in which Cell Dillon, a horse man, lost his barn, hay, grain and four valuable horses, one of the horses being J. Nio, a finely bred stallion, shipped here from California two years ago, valued at \$2,000. A match team, valued at \$500, was also burned. It was probably the work of an incendiary. The barn and contents were insured for \$1,400.

Unknown Man Killed.

SCOTTSBURG, Ind., Aug. 14.—An unknown man was run down and instantly killed by a fast train yesterday on the Baltimore and Ohio Southwestern railroad, between Holman and Lexington, this county. His head was completely severed from his body. Nothing was found on his person by which he could be identified. He was about 50 years old, and did not have the appearance of a tramp. It is thought he committed suicide.

Insane Man Attempts to Kill His Wife.

LOGANSPOUT, Ind., Aug. 14.—Nathaniel Kale, a contractor, became violently insane last night and attempted to kill his wife with an Indian club. She succeeded in escaping after a desperate struggle. Kale was overpowered by the officers and imprisoned. He raves continually.

Train Wreckers Confess.

RALEIGH, Aug. 14.—Two white state convicts here have confessed to fellow-prisoners that they caused the wreck on the Southern railway at Boston's viaduct, six years ago, in which 50 people were killed or injured. True bills have been found against both for murder.

Farmers Apprehensive of Hog Cholera.

SOUTH BEND, Ind., Aug. 14.—Hog cholera is showing itself in northern Indiana much earlier this year than usual, and is virulent. This vicinity was not a heavy sufferer last year, but the early appearance of the disease makes farmers apprehensive.

Two Barns Burned.

RICHMOND, Ind., Aug. 14.—Two large barns, belonging to Hugh Wiggins and Mrs. Anna Starr, burned at noon yesterday together with contents. The horse perished. The loss is \$2,000.

ON HIS WIFE'S GRAVE

A Suspected Man Attempted to Take His Life.

CLEWS TO A DOUBLE TRAGEDY.

Excitement Unabated in the Awful Detrick Murder Near Bellefontaine—Record of Crimes in Ohio—Fatal Accident at a Barn-Raising—Man Charged With Murder—Other Ohio State News.

BELLEFONTAINE, O., Aug. 14.—A most startling climax to the tragedy of the week came yesterday morning, when the almost lifeless body of Lewis Deerwester, who was arrested on suspicion of being the murderer of Mr. and Mrs. Detrick, and who was subsequently released, was found lying across the grave of his wife in Blue Jacket cemetery, two miles southwest of town.

Deerwester's throat had been cut from ear to ear. He was unconscious when found, but not dead. The sheriff was the first person on the grounds and took the body in charge, summoning a physician. At this time every effort is being made to save the man's life or to get a dying statement from him, for it is believed he knows much of the horrible butchery of the Detrick family.

In an account book in Deerwester's pocket was found the following note:

August 12, 1897.

DEAR FRIENDS: You are accusing me of a deed I did not do and rather than disgrace my people I will take my life. So goodbye to all dear friends forever. God forgive me for this. I would rather die than be disgraced. I have never harmed anybody. I have no one to live for; all that was dear to me is gone.

LEWIS DEERWESTER.

A man by the name of Tiny Ford, a friend of Deerwester, has been arrested on suspicion. He seems nervous and excited and says many conflicting things. When detectives searched the house at which Ford had been staying they found a blood-stained pair of trousers, pair of shoes and a hat. The blood spots found on the apparel were dry and looked like they were several days old.

It is alleged that Ford, Deerwester and the latter's brother, George, were seen on the night of the murder acting in a suspicious manner.

The town never was thrown into such sudden excitement, and it is feared that if the right man is found a mob will be organized in Union township consisting of men, women and children, to avenge in short order the black outrage. A scene more terrible than that in Urbana, a short time ago, is threatened.

In the case of a mob when the guilty parties are known and a lynching is attempted, Sheriff Shaw will use every means in his power to quiet them. Governor Bushnell is keeping in constant communication with Major Kautzman and Colonel Kuert of Kenton. If it is necessary 750 men can be thrown in here and about the jail inside of an hour, and all chances for mob violence done away with.

CRIMES IN OHIO.

Reports Made by the Secretary of State For the Past Year.

COLUMBUS, O., Aug. 14.—The judicial statistics of Ohio for the year ended June 30, 1897, just given out by the secretary of state show that 142 crimes resulting in loss of human life were committed in this state in that period. The totals in crimes persons are as follows:

Murder first degree, 41; murder second degree, 58; manslaughter, 43; criminal assault, 149; robbery, 298; assault to kill, 457; attempted criminal assault, 84; pointing firearms, 47; assault and battery, 842; and all other classes, 316. Total prosecutions, 2,031; total convictions, 926.

Of first degree murder trials five resulted in executions, 14 in imprisonment, 3 acquittal, five were nolleed and 14 are still pending.

Accident at a Barn-Raising.

BARNESVILLE, O., Aug. 14.—A force of carpenters and several farmers, neighbors, were engaged in raising a large barn on the farm of William Groves, two miles north of Hendrysburg, when a section of the timbers fell, crushing out the life of John Brown, aged 20, and seriously injuring Frank Sample and Winold Talbott, the latter being the carpenter in charge of the work. Both, it is thought, received fatal injuries. The accident was caused by timbers slipping out of the mortise.

Charged With Murder.

CIRCLEVILLE, O., Aug. 14.—Martin Hardisty, of near Williamsport, was brought to this city and lodged in the county jail, charged with murder in the first degree. His supposed victim is his stepson, John Smith. Hardisty and the boy frequently quarreled. Following a quarrel, Smith suddenly disappeared. Searching parties have been sent to find Smith, or his body, but thus far no clew has been obtained. Hardisty will be held to await developments.

Accidental Shooting.

KENTON, O., Aug. 14.—A serious accident, which resulted in wounding a 12-year-old lad named John Sims, at the home of his father, in Goshen township, this county, has occurred. The boy, in attempting to remove a loaded revolver from his hip pocket, accidentally discharged the weapon, the ball entering his side and ranging upward. The doctors have been unable to find the bullet, and the injury may prove fatal.

FREE SILVER IS ALIVE.
 (Indianapolis Sentinel.)
 A few months ago the gold bug papers were running a t. item that "free silver is dead." Now the common form of declaration is "free silver sentiment is on the wane." By the time Congress meets it will be "the free silver heresy has again assumed dangerous proportions."

PERSONAL.

—Mr. E. M. Breen was in Paris Wednesday.
 —Miss Frances Gault gave a "lawn" party Friday evening.

 —Judge Wall will leave Sunday afternoon to spend a week or so with his sons, Mr. Garrett B. Wall, of Richmond, Va., and Mr. Buckner Wall, of Norfolk.
 —Misses Abbie and Rosa Pickett, of this city, with the Misses Shelby, of Lexington, were guests of Mrs. A. Finch, of "Maplewood," on Wednesday afternoon.
 —Misses Eudora Roberta Hall, of Covington, Miss Flora Hunter, of Washington, and Miss Anna Osborne and Mr. Tom Holton, of Tuckahoe, were the pleasant guests of Miss Elizabeth Key last week.

Dr. H. C. KENOB, of Flemingsburg, figured in a sensational scene at Cincinnati Friday. He had been summoned there he claims by Miss Jessie Sommers, of Elizaville, who was visiting relatives on Walnut Hills, and who wished to consult him professionally. The couple went to Hunt's Hotel where they registered as "Mr. Armstrong and daughter." Shortly afterwards an uncle of the girl, accompanied by a policeman, appeared on the scene and a tragedy was narrowly averted. The affair was satisfactorily explained to the uncle. Dr. Kehoe was in town last evening en route to his home. He says he never met the young lady until a few days ago when she called at his home to consult him about her trouble. He advised her to go to her uncle, a Dr. Riveland. Later he received a letter from her requesting him to meet her in Cincinnati, for consultation. He met her Friday morning and the sensational developments followed. The Post says: "She refuses to name the young man who figured in her case."

Rev. G. W. Watkins has been conducting a protracted meeting at the Mill Creek Church the past week.

HOT SHOT FOR WILLIE.

People Have No Respect for Such "Political Adventurers" as He.

[Flemingsburg Times-Democrat.]
 * * * Even the Republicans of this district are beginning to get tired of the rule of Boss Morg. Thomas, Son-in-law Pugh and the mercenary whom Morg. thrust upon them as a candidate for Judge to pay for services rendered Son-in-law Pugh. They feel that they had plenty of men in their ranks who were worthy and qualified to fill the office of Circuit Judge, and men who had earned the confidence of their fellow-Republicans by their services in behalf of Republican principles. And to see such men set aside at the dictation of Boss Morg. and a political Hessian put forward as the leader is not agreeable to them. Many of them will resent it at the polls by either refusing to vote for this political adventurer, who is only true to party so long as it brings him fat offices, but many of them will vote for Jas. P. Harbeson, a man in whose honor and integrity they have learned that they can safely trust. This course is certainly a wise one, as the Republican party can gain no advantage by putting up a mercenary who will leave their "Flag" as soon as he finds that it affords him no profitable pickings. On the other hand, what inducement could there be to any Democrat to vote for a man who, while living upon the bounty of the Democratic party, deliberately betrays it and goes over to the enemy? None whatever. We have respect for a man who is a Republican and believes in a high tariff and the other tenets of Republican faith, no matter how much we may disagree with them. They have a right to their views. But the man who changes his political allegiance to promote his private gains is not worthy of the confidence of any man.

In Social Circles.

Miss Lillie Blanchard, of Washington, Ky., delightfully entertained her friends on last Thursday evening. Miss Forman rendered several vocal selections and Miss Edna Hunter favored the guests with a recitation. Martin Bros. of Maysville furnished the refreshments. There were present the following: Mrs. James Marshall, Mrs. Sallie Wilkes, Miss Fannie Marshall, the Misses Best, the Misses Forman, Miss Willie Burgoyne, the Misses Chambers, the Misses Hunter, Mrs. Hunter and Mrs. Geo. Watkins.
 Miss Fannie Gault, of the county, entertained last night in honor of Miss Byar, of Chatham, and Miss Oflut, of Georgetown.

GOVERNOR BRADLEY has issued a proclamation offering \$200 reward for apprehension of the murderers of Al. Bowling, assassinated at Morehead. Bowling was pardoned about a year ago of a life sentence for murder. He eloped with Mrs. Minerva Gaines, the wife of a respectable business man of Frankfort, who had been a teacher of the penitentiary Sunday school.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

CONSTITUTIONAL AMENDMENT.

One Will Be Voted On at the November Election by the People of Kentucky.

[Louisville Dispatch.]

The proposed amendment to the Constitution of Kentucky allowing municipalities to determine their own sources of revenue for municipal purposes should be adopted.

An eminent gentleman who had given much study to the subject of taxation announced the axiom that a State or city should not tax anything which can run away from taxation and which would come to the State or city if it were not taxed.

This is a very broad statement of a principle which has much to do with the revenues of States and municipalities. There is no doubt about the fact that it is an enlightened policy to encourage the investment of capital in enterprises which will add to the permanent and visible taxable property of the State.

Marvelous Results.

From a letter written by Rev. J. Gundersman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

MR. GARRETT B. WALL is a member of the committee appointed by the Young Men's Business Club of Richmond, Va., to attend the Grand Encampment of the G. A. R. at Buffalo, N. Y., with a view to having the grand encampment meet in Richmond in 1899.

THE Vanceburg Sun says that during the severe storm on August 4th, lightning struck a box car on a rapidly moving C. and O. freight train, wrecking it so the heavy wind lifted the roof from the car and carried it about one hundred yards from the track. It dropped in Alfred Moore's field, and Mr. Moore will use it for a wood shed cover. The train was not stopped, the crew probably not knowing anything about the accident.

THE West Union Era had a visit recently from Frank Storer, who resides in the John T. Wilson neighborhood in Adams County, and who although thirty years of age and born and reared in Adams County, had never been in the county seat before. The young man's father, Isaac Storer, seventy years of age and for forty years a resident of the county, has never been in West Union. Their home, by the most direct road, is not over fifteen miles from West Union.

THE trial of Howard Adams in Squire Miller's court Friday on the charge of detaining a woman against her will resulted in the dismissal of this warrant, but the court assessed a fine of \$5 and costs against defendant amounting to about \$14. The prosecuting witness, Mrs. Rebecca Truitt, testified that Adams came to her home and asked for a drink. She brought him a cup of water, and he then made some improper advances which she repelled. If her story is true, Adams got off with light punishment.

Governor Bradley Removes Superintendent Scott and Assistant Rhorer of the Lexington Asylum.

FRANKFORT, Ky., August 12.—Governor Bradley to-night removed Dr. Scott as Superintendent and Dr. Rhorer as First Assistant Physician of the Eastern Lunatic Asylum at Lexington. It was generally understood several days ago that the Governor would take this action immediately after the trial of Dr. Rhorer for abstracting private papers from the desk of Dr. Scott, so his action to-night will not be a surprise. The Governor's statement is as follows:

EXECUTIVE OFFICE, FRANKFORT, KY., Aug. 12, 1896.
 Being satisfied that the present unfortunate troubles at the Eastern Kentucky Asylum for the Insane at Lexington cannot be otherwise solved, and that the interest of the State and that institution as well, imperatively require it, Dr. W. F. Scott is hereby removed from the office of Superintendent and Dr. Melvin Rhorer from the office of First Assistant Physician of said asylum.
 WILLIAM O. BRADLEY, Governor of Kentucky.

POM KWANG SOH DEAD.

Prominent Korean Passes Away at His Washington Residence.

WASHINGTON, Aug. 14.—Mr. Pom Kwang Soh, president of the privy council of Korea and ex-minister to this country, died at his residence here at 3:30 o'clock yesterday afternoon of acute consumption, aggravated by over-exercise. He was 48 years old. Mr. Soh had been in poor health for many years and in the past year or two it frequently gave rise to serious concern. Last autumn, when he was appointed to the head of the king's privy council, a post ranking next to the throne of the kingdom, he was unable to proceed to his country, owing to his ill health, and deferred his departure from time to time.

With the approach of the queen's jubilee the king appointed him special commissioner to represent him on that occasion. The journey only aggravated his complaint, however, and the acute attack which hastened his demise was brought on by violent exercise in riding a bicycle last Saturday night.

The funeral exercises will take place at his late residence at 4 o'clock Sunday afternoon. The attaches of the Korean legation and Prince Eni Wha, second son of the king, who is now in this country, and many members of the diplomatic corps will attend. Immediately after the ceremony the remains will be cremated in a local undertaking establishment. This is in accordance with the last request of the dead statesman. Whether or not the ashes will then be sent to his mother country has not yet been decided.

Despite the fact that he was within the half century mark in age, few men have had a more varied career than he. For a long time he was exiled from Korea as a result of the political troubles in that kingdom. He came to this country and settled down in Washington. He at one time held a low grade position in one of the government departments, then he became a clerk and finally was employed in the United States bureau of education as a translator.

Finally a change came in his own country and the ban was removed and he was placed in the highest office in the gift of the king. For about half a year Mr. Soh was minister of justice for the kingdom. For a short time he also held the portfolio of minister of education. Then followed his appointment to represent Korea in this country. He came here in January, 1896, and continued in the post till the following June, when he was relieved by the present minister. Mr. Soh led a quiet life in Washington, but gathered about him a number of warm friends. He leaves a wife in Korea.

CHARLES B. ANDERSON,

A Former Well-Known and Highly Esteemed Maysville Merchant, Dies at Dayton, Ohio.

Mention was made some days ago of the serious illness of Mr. Charles B. Anderson, of Melbourne.

Yesterday a telegram was received by Mr. John McIlvaine bringing the sad news of Mr. Anderson's death, which occurred Thursday night or early Friday morning at the home of his daughter, Mrs. Dr. Negley, at Dayton, O. He had been suffering for some time from congestion of the brain and other troubles.

The remains were brought here on the 10 o'clock train this morning, and the funeral occurred at 11 o'clock at the Church of the Nativity, Rev. D. D. Chapin officiating, after which the body was laid to rest in the Maysville Cemetery.

Deceased was a native of Fleming County, and was in the seventy-third year of his age. Much of his life was spent in this city, where he ranked among Maysville's leading business men. For some years prior to the war he was a member of the firm of Anderson & Reeder, who conducted a foundry here. Later he embarked in the hardware business, which he was engaged in until 1883 when he disposed of his stock to Messrs. Owens, Mitchell and McIlvaine, and removed to his fine farm at Melbourne, where the rest of his days were spent.

A man of the strictest integrity in all his transactions, no one stood higher in the respect and esteem of his friends and acquaintances.

Mr. Anderson was married twice, his first wife being a Miss Gulick, and his last a Miss Bradford. The latter survives and he leaves four daughters, one by his first marriage, Mrs. Dr. Hearne, of San Diego, Cal., and three by his last wife, — Mrs. Dr. Negley, of Dayton, O., Miss Mary Anderson, of Louisville, and Miss Belle Anderson, of Melbourne.

Acetylene Gas.

We are now prepared to place on the market our machines for generating acetylene gas. These machines are adapted for lighting stores, factories, churches and private residences. Small towns and farmers can now have gas as well as those in the cities, as each consumer controls his own little gas plant, which is quite inexpensive. We guarantee to furnish six times as much light at less than half the expense of ordinary gas, electric light or kerosene lamps. A first-class agent is wanted in every county to sell our machines. **TOLEDO ACETYLENE GAS CO.,** Toledo, Ohio.
